CPYRGHT

Field girdling fences of unmortared stone, built of rocks cleared from the land, extend across the island. Middle Island. The hundred of miles of girdle fence are built of the same stone. A man, a tucker, and a garden, build the hollow and train

848

buffeting winds. Passage to a field means climbing the fence or taking part of it down. The child and shawl clad woman trudge toward a distant water pump—one of the daily chores on this timeless isle that even today enjoys few modern conveniences.
